

T. KUTTI DURAI

AWS DevOps / Cloud Platform Engineer

kduraitech@gmail.com | +91 6379691338 | Tirunelveli, India | [linkedin.com/in/t-kutti-durai-455304356](https://www.linkedin.com/in/t-kutti-durai-455304356)

PROFESSIONAL SUMMARY

Senior DevOps / Cloud Engineer with 7+ years administering AWS cloud platforms for secure, scalable, and reliable delivery of production and data workloads. Deep hands-on experience in AWS platform administration (IAM, VPC, security groups, S3, CloudWatch, Lambda), Infrastructure as Code (Terraform/Terragrunt), CI/CD pipeline design, and DevSecOps automation for banking and fintech systems across UAE, USA, Kenya, and India. Skilled at partnering with application, security, and operations teams to troubleshoot deployment, access, networking, and performance issues, and to enforce least-privilege, logging, and change-management best practices in production environments.

KEY ACHIEVEMENTS

- ▶ 40% reduction in deployment errors through end-to-end CI/CD automation with quality gates and rollback mechanisms
- ▶ 30–40% AWS cost optimisation via EC2 right-sizing, Karpenter autoscaling, and reserved-instance planning
- ▶ Led full cloud migration for First Abu Dhabi Bank (FAB) to AWS using Terraform IaC, EKS, and 30+ microservices with zero disruption
- ▶ Administered AWS networking and security (VPC, Security Groups, IAM, Route 53, ALB, CloudFront, KMS, Secrets Manager) for mission-critical payment platforms
- ▶ Built centralised monitoring, logging, and alerting (CloudWatch, Prometheus, Grafana, ELK, OpenTelemetry) for proactive incident detection and faster resolution
- ▶ Implemented full DevSecOps pipeline (SAST, SCA, container scanning, DAST, DefectDojo) to strengthen platform security posture and compliance

TECHNICAL SKILLS

AWS Platform Administration: IAM · VPC · Security Groups · EC2 · EKS · S3 · Lambda · RDS · ALB · CloudFront · Route 53 · CloudWatch · KMS · Secrets Manager

Infrastructure as Code: Terraform · Terragrunt · Ansible

CI/CD & GitOps: Jenkins · GitHub Actions · Azure DevOps · ArgoCD · Argo Rollouts

Containers & Orchestration: Kubernetes · Docker · Amazon EKS · Azure AKS · Istio · Linkerd · Karpenter

Security, Governance & Compliance: Gitleaks · Semgrep · Trivy · OWASP ZAP · Kyverno · Falco · Kubescape · DefectDojo · least-privilege IAM design

Monitoring & Observability: CloudWatch · Prometheus · Grafana · ELK Stack · OpenTelemetry · Kiali · Azure Monitor

Scripting & Automation: Python (scripting) · Shell · YAML · JSON

Databases & Messaging: PostgreSQL · MongoDB · Redis · MySQL · Kafka · ActiveMQ · Zookeeper

API Gateway & Service Mesh: Kong API Gateway · AWS API Gateway · Istio

PROFESSIONAL EXPERIENCE

Senior DevOps / Cloud Engineer | Global Software Solutions — Client: First Abu Dhabi Bank (FAB), UAE

Feb 2022 – Present • Tirunelveli, India

AWS · EKS · Terraform · Terragrunt · Jenkins · ArgoCD · Istio · Kong · Kafka · ActiveMQ · PostgreSQL · Redis

- ▶ Administered AWS platform (VPC, Site-to-Site VPN, Route 53, Security Groups, ALB, CloudFront, S3, RDS, IAM) for a mission-critical payment platform, ensuring security, availability, and scalability
- ▶ Automated AWS infrastructure provisioning using Terraform and Terragrunt across Dev/Staging/Production, reducing manual deployment effort by 80%
- ▶ Deployed and managed 30+ containerised microservices on Amazon EKS, ensuring high availability and fault tolerance
- ▶ Designed, built, and supported end-to-end CI/CD pipelines in Jenkins with integrated SAST, SCA, container scanning, and OWASP ZAP DAST security gates
- ▶ Implemented Argo Rollouts with Blue-Green and Canary strategies for 100% zero-downtime releases
- ▶ Configured Istio Service Mesh for mTLS, traffic management, observability, and circuit-breaking across all services
- ▶ Managed Kong API Gateway for JWT/OAuth2 authentication, rate limiting, and IP whitelisting across banking APIs

- Implemented AWS Secrets Manager and KMS for secret lifecycle management, envelope encryption, and least-privilege access enforcement
- Built centralised logging, metrics, tracing, and alerting using Grafana, ELK Stack, Prometheus, Loki, and OpenTelemetry, enabling proactive monitoring, faster troubleshooting, and improved system reliability
- Designed AWS Disaster Recovery solutions using automated backups, cross-region replication, and Route 53 DNS failover routing to ensure business continuity
- Provisioned EKS worker nodes using Karpenter for dynamic autoscaling and 30–40% cost optimisation
- Automated Android and iOS build, code signing, and release pipelines using Fastlane, Gradle, Xcode, and GitHub Actions

Senior DevOps / Cloud Engineer | Global Software Solutions — Client: Pay10, Kenya

Feb 2022 – Present • Tirunelveli, India

[Azure](#) · [AKS](#) · [Terraform](#) · [Azure DevOps](#) · [Istio](#) · [Kong](#) · [Kafka](#) · [Patroni PostgreSQL](#) · [Fastlane](#) · [Flutter](#)

- Automated Azure infrastructure provisioning (VNet, VPN Gateway, PostgreSQL, Application Gateway, CDN) using Terraform and Terragrunt
- Deployed and maintained 30+ microservices on Azure Kubernetes Service (AKS) with Istio service mesh for secure east–west traffic
- Designed DevSecOps CI/CD pipelines in Azure DevOps with full SAST/SCA/DAST security gates
- Enforced cloud security and compliance using Kyverno policies, Falco runtime monitoring, and Kubescape scanning
- Implemented PostgreSQL High Availability using Patroni with automatic failover, improving database resilience
- Integrated Azure Key Vault for secrets, certificates, and database credential management, aligned with least-privilege governance
- Automated Android and iOS mobile build, code signing, and release pipelines using Fastlane, Gradle, Xcode, and GitHub Actions

DevOps Engineer | NeuralSchema Infotech Pvt. Ltd — Client: Hollywood Films Company

Feb 2020 – Jan 2022 • Chennai, India

[AWS](#) · [Kubernetes](#) · [Docker](#) · [GitHub Actions](#) · [React.js](#) · [Node.js](#) · [PostgreSQL](#)

- Administered core AWS services — EC2, RDS (PostgreSQL), S3, IAM, CloudWatch, and Route 53 — across non-production and production environments
- Designed and maintained CI/CD pipelines using GitHub Actions for automated build, test, and deployment workflows
- Containerised React.js and Node.js applications with Docker and deployed to Kubernetes using rolling-update strategies
- Led migration of monolithic on-premises applications to a cloud-based microservices architecture on AWS

Software Developer | Tact Technologies

Nov 2018 – Dec 2019 • Tirunelveli, India

[ReactJS](#) · [Java](#) · [Spring Boot](#) · [MySQL](#) · [Docker](#)

- Developed full-stack hospital management and e-commerce platforms using ReactJS, Java Spring Boot, and MySQL
- Implemented JWT-based authentication and RBAC to secure sensitive patient and customer data
- Containerised applications with Docker for consistent deployments across environments

Process Operator / Chemical Technician | Tuticorin Alkali Chemicals | Saudi Arabian Fertilizer Company

Feb 2006 – Aug 2018 • India / Saudi Arabia

Chemical industry experience prior to technology career transition.

EDUCATION & CERTIFICATIONS

B.Sc. Chemistry

Manonmaniam Sundaranar University, Tamil Nadu, India • 2005

AWS Certified Solutions Architect

Amazon Web Services
